### **Sentegra, LLC. Nominated for APEX Award**

Sentegra, LLC has been nominated for a prestigious APEX Award, to be presented by the Colorado Software and Internet Association at their 2008 award ceremony in June.

The Colorado Software and Internet Association (CSIA) each year presents awards to top technology companies across the state in recognition of outstanding progress and contribution to the software and internet economy in Colorado. This year will highlight the achievements of nominees and announce winners at the ceremony to be held at EXDO Event Center, attended by the most notable contributors to the success of Colorado's software industry. Presentation of the winners is set for June 5<sup>th</sup>.

Jon Shore, Sentegra, LLC CEO and Founder states, "This CSIA recognition underscores the excellent work by our entire team over the past year, and we are honored to be included as a nominee. We are very proud to be nominated along with strong established companies like Kaiser Permanente and Resort Technology Partners."

#### About Sentegra, LLC.

Located in Golden, Colorado, Sentegra, LLC is a leading developer of secure and leading edge transaction, authentication, loyalty and identity management technology for payment, ticketing, healthcare, tourism, access control and many other industries. #### CSIA

"The nominated companies represent the leaders of Colorado's technology industry," said Barbara Bauer, co-chair of the 2008 CSIA Apex Awards. "It's important to recognize the achievements made in our state, as well as the people behind the successes."

"These nominees – as well as the guests – represent the innovation and business success of technology in Colorado," Jackie Walden, co-chair of the 2008 CSIA Apex Awards added.

"The Colorado technology market continues to intensify, and we are seeing continual proof points that Colorado companies are becoming more and more globally successful," said Su Hawk, president, CSIA. "The companies and individuals who were nominated this year represent a broad spectrum of technology products and services, showing the innovation, intensity and inspiration that embodies why our industry is so strong," she said.
